

SUMAIYA DESHPANDE

+91 88309 51083 · sumaiyadeshpande@gmail.com · [Linkedin](#)

Product Designer with 4+ years of experience solving high-stakes problems across B2B & B2C products in WealthTech, LegalTech, Healthcare, and Generative AI. I excel at breaking down complex workflows and transforming them into intuitive experiences that deliver value for users and businesses.

PROFESSIONAL EXPERIENCE

Experience Designer - Copods, Pune

June 2023 - Present

Selfwealth - Syfe

- Led the end-to-end redesign of Selfwealth following its acquisition by Syfe, modernising the platform and aligning it with the business's long-term strategy
- Launched the redesigned experience to existing customers, achieving an **NPS of 47** and **maintaining monthly churn at 4.2%** through the transition period.
- Drove platform-wide UX consistency across geos through multiple audits and design-system improvements, partnering closely with engineering to scale reusable components and explore AI-assisted implementation.

CloudLex - Lexvia

- Partnered closely with product, business, and legal teams to unpack various workflows for a cloud-based case management platform tailored for personal injury law firms.
- Redesigned a task-focused **Matter Workbench** that helped frontline teams understand and prioritise their daily work, **increasing adoption by 87%**.
- Designed **Insights Dashboard** for firm leaders, replacing fragmented manual reporting with clear, actionable visibility into overall business health and **reducing reporting time by 15%**.

RecordXtract

- Led the 0 → 1 design of RecordXtract, transforming a complex, compliance-heavy medical record retrieval process into an intuitive experience for insurance, healthcare and legal stakeholders.
- **Reduced retrieval time by 40%** while simplifying access to sensitive data within a highly regulated environment.

UX Designer - Praxis, Mumbai

June 2022 - Sep 2022

- Crafted a visually cohesive web experience for Praxis Arts, an independent creative design studio
- Increased user engagement with cultural content, streamlined navigation for creators/artists/institutions, and elevated the studio's digital presence
